

Groupe Lacasse Awarded Two GREENGUARD Certifications!

ST. PIE, CANADA - May 24, 2007 - Groupe Lacasse freestanding laminate casegoods, steel storage and filing, educational furniture and the Nvision workplace system have all been awarded *GREENGUARD Indoor Air Quality Certification* by the GREENGUARD Environmental Institute (GEI). Freestanding casegoods and steel storage and filing have also received the *GREENGUARD Children & Schools Certification*.

These products under the Lacasse, Avenue, and Nvision brands have passed a series of demanding tests required by the GEI and have been confirmed as **low emitting products that will not affect indoor air quality**.

The GREENGUARD certifications are one of many steps that Groupe Lacasse is taking towards reaching its sustainability goals. Groupe Lacasse is proud to receive these certifications, as it reflects its ongoing commitment to creating healthy workplace environments. Groupe Lacasse will continue to participate in GREENGUARD certification programs by paying attention to rigorous environmental standards when designing and manufacturing new and existing products.

For any questions regarding Groupe Lacasse and GREENGUARD certifications, please contact Martine.Morand@groupelacasse.com.

For a detailed listing of the Groupe Lacasse collections/products that have been awarded GREENGUARD Certifications, please go online: www.greenguard.org.

These GREENGUARD Certifications apply only to standard Groupe Lacasse products and finishes. No Specials are covered.
