

Today's patient care environments must be welcoming and warm, while being efficient, flexible, durable, and affordable.

Groupe Lacasse healthcare furniture solutions combine each of these attributes into a comprehensive package ideally suited for patient care facilities.

EFFICIENT

Thin profile, wall-mounted casework maximizes use of space.

ATTRACTIVE

Soft contours and appealing finishes contribute to a sense of patient well-being.

HYGIENIC

Thermoformed fronts are easily cleaned. Disposables are conveniently positioned. Water is directed to minimize splash and moisture accumulation.

VERSATILE

Modular design facilitates change and adaptation.

DURABLE

Heavy-duty hardware, steel-sided drawers, and solid joinery ensure a long useful life.

SERVICEABLE

Our industry-leading 25-year warranty and exceptional dealer service ensure client satisfaction.

Thermoformed wrapped edges on drawers.

Corian® counter top with integrated sink and offset drain.

Cut-out storage for gloves.

Sink counter for ADA access.

Equipment rail.

ATTRACTIVE

Exam room

EXPERIENCE THE CARE

Groupe Lacasse presents a complete offering of evolutive furniture and 100% reconfigurable modular casework solutions designed and manufactured with exceptional care to cover the full needs of healthcare establishments, from hospitals to long-term care facilities and clinics of all types.

Groupe Lacasse products are engineered to exacting specifications, making it the superior alternative to built-in millwork. In addition to lower ownership and maintenance costs, it offers the most environmentally responsible solution available.

It is the smartest possible investment for patient-centered casework, and for other areas such as laboratories, pharmacies, emergency departments and procedure rooms.
