

GROUPE LACASSE TAKES HOME TWO PRIZES

The NEX and QUAD Collections from Lacasse Win Silver and Bronze!

TORONTO, SEPTEMBER 20, 2012 - The atmosphere at the Direct Energy Centre is at its best today, as Groupe Lacasse celebrates the outcome of the Innovation Awards. Indeed, two of its Lacasse collections have been prized at IIDEX/NeoCon Canada 2012! The new and modern-looking NEX collection won **Silver** in the **Furniture Systems category**; the completely renewed QUAD Enhanced collection won **Bronze** in the **Furniture Systems Enhancements category**.

NEX is the next step in the evolution of office furniture solutions. It meets an emerging need: design. With its uneven landscape and varying volumes and proportions, it redefines visual references. The era when high-design was reserved to the very exclusive elite is over. This new collection introduces mainstream modernity.

The Zen-inspired, Enhanced QUAD collection was created for those who appreciate the value of intelligent design and the beauty of impeccable craftsmanship. Clean lines and a clever play on volumes make this refined line of products a paramount of style and elegance. Its pure architecture transforms any workspace into a flawless work haven.

The news is received with a lot of joy from the Groupe Lacasse team. It is a second award for the QUAD Enhanced collection, prized at NeoCon with a Best of NeoCon Silver Award earlier this year. As for NEX, the announcement of its Silver prize could not come at a better time. This promising new collection is scheduled for an official launch later this fall.
